March 2026

Ada Hacks

Partnership Package

Brought to you by

ADA'S TEAM

AdaHacks 2026

A hackathon for women and gender diverse individuals in technology.

AdaHacks is a 24-hour hackathon dedicated to **empowering women and gender-diverse individuals** to grow as innovators, leaders, and creative-thinkers in a traditionally underrepresented industry. We aim to **create a supportive environment** where every hacker feels welcome.

Everyone, regardless of gender, is welcome to participate and compete in our two streams for this year: **UI/UX and Software Development**.

MARCH 7 - 8

40-80 PARTICIPANTS

2 STREAMS

Values

- **Collaboration.** Our event is not only about solving problems, but also solving them with others. We prioritize teamwork and diverse perspectives, and we value that for our participants and our organizing members.
- **Integrity.** We approach every decision with honesty and care, prioritizing our pariticipants, organizers, and community.
- **Representation.** Our event represents a wide range of skillsets, backgrounds, and perspectives, creating a space where all participants feel seen, heard and valued.

Mission

- **Technology for everyone.** We believe meaningful technology involves people from diverse identities, abilities, and experiences. There is a place for everyone in tech.
- **Nurturing talent.** We seek to nuture talent by providing opportunities for participants to learn, experiment, and grow their technical skills through hands-on building.
- **Fostering boldness.** Innovation in technology deserves to be celebrated, so we want to provide bright minds a safe space to express their prowess and creativity.

About Ada's Team

We are a student group at the University of Alberta dedicated to promoting diversity and inclusivity in technology.

Founded in 2013, we have long empowered women, 2SLGBTQIA+, and other historically underrepresented minorities within Computer Science, Software Engineering, and related fields by creating opportunities, supporting career growth and discovery, and building community.

Our Initiatives

- Mentorship Program
  - Supports students' academic and career growth through mentorship with industry professionals and upper-year students.
- Conferences
  - Providing fully-funded opportunities for students to attend conferences such as the Grace Hopper Celebration and the Canadian Celebration of Women in Computing.

Our Events

- Coffee & Code
  - Industry talks with companies and professionals from diverse fields and backgrounds.
- AdaHacks
  - A hackathon hosted by Ada's Team, originally focused on UX/UI design and now expanded to a general tech hackathon centered on collaborative and inclusive innovation.

Partnership

We are looking for partners who will provide problem statements for the UI/UX stream.

Design (UI/UX) Stream

Participants will use their skills and knowledge in UX and prototyping to design a solution.

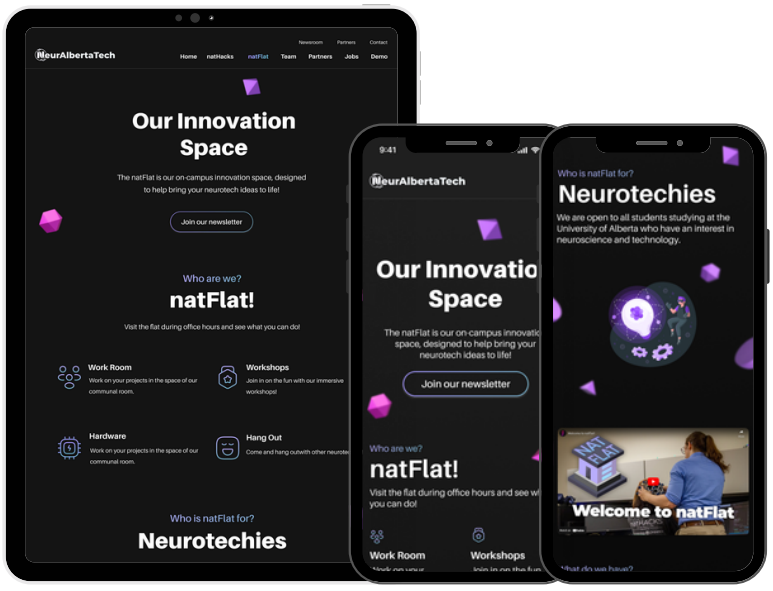

Problem Details:

- Focused on a website or mobile application
- Clearly defines the design challenge and goals
- Outlines key UI/UX requirements such as accessibility or user flows

Examples:

Example Problem Statement: Design a platform that helps connect Calgary-based UX professionals with recruiters and hiring managers and supports meaningful job matching, feedback, and relationship-building within the community.

Example Project: This is what students will create and present.

Partnership Benefits

What's in it for you?

Collaborate with talented student teams

Each team consists of 2-5 participants with skills in design, development, and UX.

Share your mission and values

Expand your organization's reach by connecting with attendees and volunteers. You'll receive a dedicated table at the venue to showcase your mission and initiatives.

Spot potential talent and future collaborators

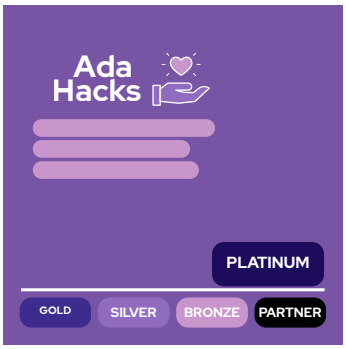

Connect with motivated students who may become interns, volunteers, or employees.

Contribute to community impact

Support students in creating technology-for-good that aligns with your mission.

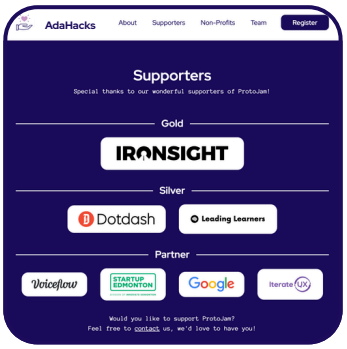

Display your brand

See below on how we will feature your brand alongside our sponsors!

Front Back

Ada Hacks

Thank you for your interest and consideration in our mission to empower underrepresented individuals to grow as innovators, leaders, and creative-thinkers in a traditionally underrepresented industry. We sincerely look forward to partnering with you to make the most of your invaluable contributions to Ada's Team and AdaHacks!

Please reach out to our organizing team to submit your interest in sponsoring AdaHacks 2026, University of Alberta's first hackathon for women and gender diverse individuals.
